### **Spring term booklet 2025-26**

The following competition structure will enable more individual young people to represent your school in sport or physical activity at a level that is appropriate to their interests and competencies. Each competition has been allocated to a tier, with a description of the tiers as follows. Please ensure that you are aware of the tier of competition so that you can select your teams appropriately.

| Excel Competition       | Excel based competitions catering for the most talented athletes and teams that your school can field, subject to some eligibility criteria (e.g. National Governing Body age restrictions on competitions). These competitions are an opportunity to showcase the sporting prowess of your school and for teams to progress to County finals and in most competitions to Regional and National finals. We would advocate an 'in it to win it' approach to team selection for these competitions, however this does not mean that schools with 'weaker' sides should not enter as the local SSPAN and County Final structure will allow each school to perform at their relevant level as it has done so in the past.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Development Competition | In this category the focus is to increase the number of individual pupils that represent schools. These competitions provide the opportunity for less-engaged students, or those that are engaged but are perhaps less talented in traditional sports, to participate in non-traditional competitions. The ideal model for this is that the pupils that represent a school in the 'Excel Competitions' would not be eligible to play in 'Development Competitions', though we understand that there may be some crossover for smaller schools. This competition tier is a new addition but is mostly based on existing sports. Where previously many schools have entered football and rugby players into dodgeball competitions, we aim to limit this so that other pupils may have the opportunity to represent their school at sport, rather than the most talented few monopolising the competition offer. The number of competitions has therefore not increased, but the new focus caters for an increase in the number of individual pupils that participate. The structure and format of these events may differ slightly with the potential introduction of alternative scoring and adapted rules implemented to assist with the provision of a more appropriate level of competition for the participants involved. |
| Inspire Event           | Competitions/events that have the potential for different pupils, outside of the above competition pathways to represent their school in an event that is first and foremost about taking part and developing skills through sport. (Both physical and sport-transferable skills as well as life skills).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

All participants on a team must have either a physical disability, SLD or MLD in order for the team to be eligible to progress to level 3.
  - Should a team field ineligible a player/team on the day then they cannot win the competition.
- Format:**
- A round robin format or appropriately sized pools leading to a knockout in the later stages. This will be confirmed on the day based on the number of teams entered.
- Key Terminology:**
- White ball = “Jack”
  - Red and Blue balls = team balls
  - Red side/Blue side = colour of the ball a team is using for that game
  - End = a game
- Rules:**
- The red side always starts the first end by propelling the jack into court. The captain chooses the player on their side to play the jack. The jack ball must cross the ‘V’ line to be in play.
  - The player who propels the jack ball also plays their team’s first coloured ball.
  - A player from the opposing side then propels their first coloured ball.
  - The side whose ball is furthest from the jack must play until they either manage to get closer to the jack, or run out of balls. The side with remaining balls then propels them.
  - The end is completed when all balls from both sides have been played.
  - The end is scored by awarding one point for every ball of the same colour closer to the jack than the nearest opposing coloured ball.
  - Blue side then starts the second end.

## **PERSONAL BEST FEST**

**Inspire Event - Refer to page 1 and Target group below for more information**

**Date, Time and Venue:** Wednesday 18<sup>th</sup> March 2026 @ Ivanhoe School, North Street, Ashby de la Zouch, LE65 1HX

9:15am-11:00am

**Age Group:** KS2

**Gender:** Mixed

**Number of Pupils** Maximum of 10 pupils per school, any number of boys/girls.

**Intent:** To support individual development in sport.

**Target Group:** Low self-esteem issues, low sporting ability, in need of a positive sporting experience, haven't represented school at anything else and need encouragement to be active.

**Aim:** The aim of this event is to provide a positive, fun and engaging sporting experience for children who may have low self-esteem/low sporting ability and those who view sport in a negative light. The event is designed to teach children about determination, resilience and self-improvement to help their confidence and teach them to see challenges as opportunities to grow. It has been proven that having a growth mind set can improve a child's progress & attainment.

**How will it work:** Schools will identify up to 10 KS2 pupils who would benefit from this experience and complete the challenges in their school and record their personal best score on their personal best passport prior to the face to face event. This can be done once but ideally multiple times.

At the face to face event the pupils will complete the same challenges as before and attempt to beat their personal best. This event is all about being the best they can be and trying to beat their own scores, not competing against other pupils.

**Format** Upon arrival pupils will be put into mixed teams with pupils from other schools to rotate around the personal best challenge stations which will be randomly selected from the Best Fest passport. These stations are the same activity for Year 3/4 and Year 5/6 pupils but can be adapted to be better suited to the age of the pupil taking part.

**Equipment:** All students must wear PE kit with all jewellery removed and long hair tied back, pupils should also bring their own water bottle and their personal best passport.

## **ORIENTEERING Y5/6**

Although each child will have the opportunity to take part in the competition. The format of this event can be used by schools to meet the outcomes for individuals and class groups.
