

## North West Leicestershire School Sports Partnership

### Summer term booklet 2025-26

The following competition structure will enable more individual young people to represent your school in sport or physical activity at a level that is appropriate to their interests and competencies. Each competition has been allocated to a tier, with a description of the tiers as follows. Please ensure that you are aware of the tier of competition so that you can select your teams appropriately.

Excel Competition	<p>Excel based competitions catering for the most talented athletes and teams that your school can field, subject to some eligibility criteria (e.g. National Governing Body age restrictions on competitions). These competitions are an opportunity to showcase the sporting prowess of your school and for teams to progress to County finals and in most competitions to Regional and National finals. We would advocate an ‘in it to win it’ approach to team selection for these competitions, however this does not mean that schools with ‘weaker’ sides should not enter as the local SSPAN and County Final structure will allow each school to perform at their relevant level as it has done so in the past.</p>
Development Competition	<p>In this category the focus is to increase the number of individual pupils that represent schools. These competitions provide the opportunity for less-engaged students, or those that are engaged but are perhaps less talented in traditional sports, to participate in non-traditional competitions. The ideal model for this is that the pupils that represent a school in the ‘Excel Competitions’ would not be eligible to play in ‘Development Competitions’, though we understand that there may be some crossover for smaller schools. This competition tier is a new addition but is mostly based on existing sports. Where previously many schools have entered football and rugby players into dodgeball competitions, we aim to limit this so that other pupils may have the opportunity to represent their school at sport, rather than the most talented few monopolising the competition offer. The number of competitions has therefore not increased, but the new focus caters for an increase in the number of individual pupils that participate. The structure and format of these events may differ slightly with the potential introduction of alternative scoring and adapted rules implemented to assist with the provision of a more appropriate level of competition for the participants involved.</p>
Inspire Event	<p>Competitions/events that have the potential for different pupils, outside of the above competition pathways to represent their school in an event that is first and foremost about taking part and developing skills through sport. (Both physical and sport-transferable skills as well as life skills).</p>

- We will be introducing the half game rule for the games.

**EXTRA INFORMATION:**

Does my team need to know how to play rugby to attend?	If they can have a basic knowledge of passing that is helpful but you shouldn't need to do lot of training with them as the carousel should help build that knowledge before the games.
How many a side are the games at the end?	The games will be 8 a side, with everyone else as a sub.
What is the half game rule?	From September 2019, the Half-Game Rule became regulation. It means that every player in clubs, schools and colleges is guaranteed to get half the available game time, regardless of age, gender, school or club.
